 - II. Claims 29-34, 89-94, 142-147 and 35-38, 95-97, 148-151, drawn to a system and method for providing a user with an opportunity to schedule program reminders over a remote access link, classified in class 725, subclass 58.
 - III. Claims 40-45, 99-104, 153-158, 46-48, 105-107, 159-161 and 49, 108, 162, drawn to a system and method for recording and playing back television program over remote access link, classified in class 725, subclass 55.
 - IV. Claims 50-53, 109-112, 163-166, drawn to a system and method for remotely ordering pay per view programs with a local interactive television program guide via remote access link, classified in class 725, subclass 104.

Art Unit: 2611

V. Claims 54-60, 113, 167, drawn to a system and method for providing user with remote access to function of an interactive program guide over and Internet link and remote access to a none program guide interactive television application over a remote access link, classified in class 725, subclass 51.

2. Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention 2 has separate utility such the program reminders can be used in other areas such as reminder system; invention 3 has separate utility such as recording and playing back television program can be used in VCR; invention 4 has separate utility such as ordering pay per view program can be used in pay per view system; invention 5 has separate utility such as remote access to a non-program guide interactive application over a remote access link can be used in system having link to external network such as PC/TV.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). See MPEP § 806.05(d).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
